

AARON GERACI

Network Administrator & Creative Technologist

Cincinnati, OH 45238 • Cell: 513.504.0116 • Email: aageraci@cincinnati-state.edu • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

Professional Profile

Versatile IT professional transitioning from 10 years in Motion Graphic Design to Network Administration, with hands-on experience supporting enterprise infrastructure, data center operations, and endpoint management. Strong foundation in network troubleshooting, SNMP-managed devices, structured cabling, and automation via Python and PowerShell. Currently supporting enterprise network equipment and DCIM systems while pursuing an AAS in Network Administration.

Relevant Coursework & Labs

Network Communications: OSI model analysis, Layer 1-4 troubleshooting, Network topologies and traffic flow, Cisco IOS CLI configuration (routing, switching fundamentals)
Windows Server Administration: DNS, DHCP, IPAM configuration, Network Policy Server (NPS) & Remote Access, Identity & access management
Virtualization: Virtual machine provisioning, Networked VM environments, Snapshotting and recovery
Active Directory: User and computer provisioning, Group Policy Objects (GPOs), Permissions and access control
Automation & Scripting: Python (REST APIs), PowerShell
ITSM: Ticketing, Change Documentation, Asset Management
Enterprise Tools: DCIM, SCCM, Microsoft Intune, Entra ID (Azure AD), Active Directory, Windows Server
Infrastructure: UPS & PDU Configuration, Structured Cabling, Fiber/Copper Media, SFPs, Rack & Data Center Operations

Education/Technical Training

AAS, Computer Network Administration | Cincinnati State, Cincinnati, OH Enrolled: 08/2024 – 12/2026
Software Engineering Training | Per Scholas, Cincinnati, OH Completed: 12/2023 – 02/2024
BFA, Graphic Design, 3.2 GPA | Northern Kentucky University, Highland Heights, KY Completed: 08/2007 – 05/2012

Certifications

CompTIA A+ (COMP001022532215) : 01/2025 **CompTIA Network+** : Expected 07/2026
ITIL 4 Foundation (GR671638252AG) : 04/2024 **AWS Academy Data Center Technician** : 07/2025

Professional Experience

IT Infrastructure Facilities Intern | The Cincinnati Insurance Companies, Cincinnati, OH 07/2025 – Present

- Supported enterprise data center infrastructure, fulfilling low-to-medium complexity work orders.
- Troubleshoot UPS network connectivity using serial console access, NIC configuration, and SNMP validation.
- Configured UPS and rack PDUs for SNMP traps, monitoring, and network integration.
- Integrated Aruba Central API with DCIM using Python, automating updates for device serials, MAC addresses, provisioning state, and inventory accuracy.
- Assisted in Wi-Fi AP and access switch refreshes, validating cabling and switch port connectivity.
- Documented and mapped network topology, rack layouts, and cabling in DCIM.
- Performed Layer 1 troubleshooting: fiber vs copper diagnostics, SFP validation, patching, continuity testing.

Desktop Support Intern | The Cincinnati Insurance Companies, Cincinnati, OH 12/2024 – 07/2025

- Diagnosed network connectivity issues including DNS failures, profile misconfigurations, and RDP access.
- Developed PowerShell scripts to validate RDP connectivity and automate troubleshooting workflows.
- Distinguished hardware vs software root causes during endpoint outages.
- Managed endpoints with SCCM and Intune, enforcing security baselines and application deployments.
- Supported PXE/OSD imaging and user access provisioning.
- Supported incident ticket queue with a focus on customer relations and adherence to our SLA.

Additional Professional Experience 2017-2023. Available upon request, omitted for technical relevance.
